

INTRANASAL HEPARIN TRIAL

Northern Health

THE UNIVERSITY OF
MELBOURNE

DO YOU OR SOMEONE YOU KNOW HAVE COVID?

YOU MAY BE ELIGIBLE TO JOIN THE
INHERIT CLINICAL TRIAL

WHAT IS IT?

The clinical trial is testing whether a heparin nasal spray can reduce the transmission of COVID within households.

CHECK YOUR ELIGIBILITY

To be eligible, you must have tested positive to COVID in the last 72 hours and be living with someone who is willing to participate in the study.

WHAT DOES IT INVOLVE?

During the 10-day treatment period, you will be required to use the nasal spray, take some swabs, and complete surveys. After this period, there will be follow-ups to monitor for long COVID symptoms. This will all be done from your home.

REIMBURSEMENT

Each participant will receive a \$50 digital gift voucher upon completion.
