

EMERGING LEADERSHIP COMMITTEE WORK IN PROGRESS SYMPOSIUM

Date 26 Feb 2024 9:00-14:30

TIME	PRESENTATION TITLE	SPEAKER
9:00-9:10	Welcome Acknowledgement of country	Claire von Mollendorf
	Pneumococcal epidemiology and PCV impact projects	
9:10-9:20	CRE project update	Prof Fiona Russell
9:20-9:40 Oral	The impact of PCV formulation & schedule against pneumonia in children under 9 years of age: a systematic review & meta-analysis	Prof Fiona Russell
9:40-9:55 Poster	Serotype-specific pneumococcal carriage in the PCV-era: a systematic review and meta-analysis	John Hart
9:55-10:05 Poster	Invasive bacterial disease post-PCV10 introduction in Fiji	Stephanie Clark
10:05-10:15 Poster	PCV dose effect on pneumococcal density	Isatou Jagne
10:15-10:45	Tea	
10:45-10:55 Poster	Indirect PCV effects in Papua New Guinea	Eleanor Neal
10:55-11:05 Poster	Impact of COVID pandemic on pneumococcal carriage and disease in adults hospitalized with community-acquired pneumonia in Mongolia	Kirsten Fagerli
11:05-11:15 Poster	Effectiveness of the 13-valent pneumococcal conjugate vaccine against hypoxic pneumonia in children in Mongolia: an observational hospital-based test-negative study	Claire von Mollendorf
11:15-11:30 Oral	Relationship between pneumococcal and respiratory syncytial virus (RSV) or influenza virus co-infection on lower respiratory tract infections severity	Lien Anh Ha Do
11:30-11:40 Poster	A decade of acute respiratory infection surveillance from Lao PDR	Keoudomphone Vilivong
	Pneumococcal immunology	
11:40-11:50	Update on PCV immunity and immune correlates of protection projects	Paul Licciardi

11:50-12:05 Oral	Cellular immune responses following reduced dose PCV10 or PCV13 schedules in a randomised controlled trial in Vietnam	Hugh Brown
12:05-12:20 Oral	Memory B cell dynamics following reduced-dose PCV vaccination in Vietnam	Thanh V. Phan
	Health economics	
12:20-12:30	Update on PCV health economics projects	Natalie Carvalho
12:30-12:45 Oral	Inequitable distribution of PCV economic benefits across countries with different income levels due to current pricing policy	Fulgence Niyibitegeka
12:45-13:15	Lunch	
	Microbiology	
13:15-13:25	Update on serotype replacement projects	Catherine Satzke
13:25-13:40 Oral	Understanding persistence of <i>Streptococcus pneumoniae</i> serotype 6B in Mongolia following vaccine introduction	Paige Skoko
13:40-13:50 Poster	PCV13 vaccine effectiveness against pneumococcal carriage antimicrobial resistance in children in Lao PDR	Laura Boelsen
13:50-14:00 Poster	Assessing the performance of Pneumotac for pneumococcal serotyping using pleural fluid for improving pneumococcal serotype surveillance and vaccine strategies in Asia OR Impact of COVID-19 non-pharmaceutical interventions on the carriage prevalence and density of nasopharyngeal microbes in Vietnamese children	Eliza Nikolaou
14:00-14:10 Poster	Investigating Influenza-Group A Streptococcal coinfections	Jonathan Jacobson
14:10-14:30	Close
