Emerging Leaders Committee: Work in Progress Symposium

This Emerging Leaders Committee work in progress symposium will provide the opportunity for early career researchers to present their work for the 13th Meeting of the International Society of Pneumonia and Pneumococcal Diseases (ISPPD-13) in March 2024. The symposium will include a range of oral and poster presentations on pneumococcal and paediatric health related research.

Full program and list of speakers in attached program.

CRE investigator project updates:

Prof Fiona Russell: PCV impact and reduced dose schedule projects

A/Prof Paul Licciardi: PCV immunity and immune correlates of protection projects

A/Prof Catherine Satzke: Serotype replacement projects

A/Prof Natalie Carvalho: PCV health economics projects
