Emerging Leaders Committee: Work in Progress Seminar

This Emerging Leaders Committee work in progress seminar will feature four early career researchers working on pneumococcal or paediatric health related research. One speaker will provide tips on how to design an effective poster and three researchers will share an update on their research work.

Contact CRE.pneumo@mcri.edu.au for more information.

Speakers and presentations:

Paige Skoko - How to do a poster presentation.

PhD student, Department of Microbiology & Immunology, Faculty of Medicine, Dentistry and Health Sciences, University of Melbourne, Australia

Wisnu Tafroji - Pneumococcal research in Indonesia: Epidemiology, serotyping, antimicrobial resistance and exploration of Streptococcus pneumoniae

Researcher, Eijkman Institute for Molecular Biology, Jakarta, Indonesia

Fulgence Niyibitegeka - Economic surplus of pneumococcal conjugate vaccine

PhD student, Health Economics Unit, School of Population and Global Health, University of Melbourne, Australia

Dr Stephanie Clark - Incidence and risk factors for neonatal sepsis in Fiji

Paediatrician and clinical researcher, Colonial War Memorial Hospital, Suva, Fiji
